

California Urban IPM Apprenticeship

Teaching skills to improve pest and weed management across California

Essential components of an effective IPM program- Policy, training, recordkeeping and stakeholder engagement

Wednesday July 31, 2024

Noon to 1:15 pm PDT

Zoom link: https://us06web.zoom.us/join/91234567890?pwd=ZAlfUm0qTovHNEPzXgSgtthe9_oJr8LoWG

Webinar abstract:

Comprehensive and effective integrated pest management (IPM) programs require commitment and responsiveness from all stakeholders involved in pest and weed monitoring, exclusion, sanitation and control. During this webinar, Ryan Anderson will cover the IPM planning, training, recordkeeping and engagement necessary to foster IPM commitment from stakeholders.

Learning objectives addressed:

Demonstrate the ability to develop and implement pest-specific treatment plans for the major pest categories using IPM principles. (60 minutes)

Presenter bio:

Ryan Anderson, Sustainable Communities Development Specialist, IPM Institute of North America

A 2016 National Academies of Sciences, Engineering, and Medicine Christine Mirzayan Science & Technology Fellow, Ryan has extensive experience advancing science-based solutions in urban and residential communities highlighted by his leadership of IPM Institute's Midwest Grows Green sustainable landscaping initiative. Ryan has a Masters of Sustainable Solutions from Arizona State University and holds a dual bachelor's degree in Biology and Electronic Journalism from Butler University.
